ABOUT US

MATI Business Group is a dynamic and diversified company operating across multiple sectors including construction, logistics, import-export, manufacturing, and business consulting. Built on a foundation of integrity, innovation, and strategic growth, MATI brings together specialized teams and industry expertise to deliver solutions that make an impact.

Since our establishment, we have committed ourselves to driving progress through sustainable practices, job creation, and meaningful partnerships. Our group structure allows us to serve a wide range of industries under one strong, unified brand.

MISSION

To provide innovative, high-quality, and sustainable business solutions across various sectors, while fostering economic development, creating job opportunities, and delivering exceptional value to our clients, partners, and communities.

VISION

To become a leading and respected business group in Ethiopia and the region — recognized for operational excellence, trusted partnerships, and a strong commitment to national growth and transformation.

OUR GOALS

Short-Term Goals

- Expand our footprint across Ethiopia and into neighboring markets.
- Strengthen our core business units with modern tools and efficient practices.
- Develop new partnerships to broaden our service portfolio.

Long-Term Goals

- Evolve into a regional business leader with global best practices.
- Launch industrial-scale manufacturing to reduce import dependency.
- Build a legacy of innovation, sustainability, and economic empowerment.

WHY CHOOSE US

Multi-Sector Capability – One trusted partner with diverse services under a single umbrella.

Experienced Team – Skilled professionals with deep industry knowledge and a commitment to excellence.

Quality & Consistency – High standards across all operations, ensuring client satisfaction and trust.

Innovative Thinking – We embrace technology and creative solutions to stay ahead in an evolving market.

Community Impact – We contribute to national development through job creation, training, and sustainability.
